New Home Construction – CSI Certificate

Date: _____ Acct# _____

Customer Name: _____

The Texas Commission on Environmental Quality (TCEQ) requires a Customer Service Inspection Certificate (CSI) for each meter that is installed.

This CSI **must** be performed, and a signed copy provided to our office

*****BEFORE PERMANENT WATER WILL BE ESTABLISHED.**

These inspections are required:

- ☐ Pipe used from meter to house
- ☐ Materials used in plumbing
- ☐ Final inspection of fixtures

Due to there being three different licensed individuals that can fill out this form: ***TCEQ Licensed Customer Service Inspector, Licensed Plumbing Inspector or Licensed plumber with Water Supply Protection Specialist endorsement***, please provide your title, license number and Type.

If there is no licensed individual at the build site, you **MUST** contact our office to schedule our General Manager to perform the 3 stages of the CSI at the current CSI fee.

Thank you,
Brinker WSC
